Desktop Background Changer Download For Windows (Latest)

Desktop Background Changer helps you change your desktop background in a quick and easy way. The main window has a custom buttons area, from which

you can choose a change the desktop background, windows, or even the mouse pointer.

There's a small icon for downloading new wallpapers, which you can use to quickly create a new set of desktop backgrounds. Good, but doesn't really stand out The application doesn't come with a lot of options, and in fact, it has no real customization and runs in a very minimalist style. What's more, the graphics are really not the

best quality. You can't change the color of the main window, and you're given very limited options when it comes to customization, so that a lot of people might struggle a bit at first. Even so, this app can be used as a quick and easy way to change desktop backgrounds on the go. Desktop Background Changer Summary: The application provides a way to change your desktop background in a quick and easy way. This

freeware doesn't come with a lot of options, but it can be used to change the desktop background in just a couple of steps.

Desktop Background Changer is a small, reliable software that comes with a collection of impressive photos that you can use as desktop wallpapers. The name 'Changer' indicates the fact that you simply need to open the program and select the image you wish to display on your screen. Quick desktop changer Desktop Background Changer makes it easy for you to choose a

different wallpaper for your computer screen, at any given time. The software enables you to switch to another wallpaper with one simple mouse click, instead of browsing through the local folders for a suitable image. Desktop Background Changer displays its collection of beautiful, high-resolution photos as thumbnails and all you need to do is click on them once. The desktop changes instantly, displaying the photo you chose.

Some of the images are larger than others and the default background fit is the original size of the photo. In case the images are larger than your screen resolution, you can customize it from Control Panel, in the Personalization section. Set the Picture Position to 'Fit' and the selected image is automatically resized to fit your screen. Double edition of impressive images Desktop Background Changer comes in two editions, namely

Nature and Cars, both of which present themselves with collections of 20 photos. All you need to do is open one of the editions, and select the picture you wish to view on your desktop. The wallpaper remains to the settings you made even after you close the application. The images are stored in specific database files that you can only append using the suitable software. Impressive desktop wallpaper collection Whether

nature snapshots relax you or you like to view a high end car displayed on your desktop, Desktop Background Changer offers you two collections of beautiful pictures. The photos are high-resolution and colorful, selected to enliven your desktop. The software does not provide an animated photo succession, but you can instantly change them with one mouse click.

Advantages: Comes with two editions of impressive images

that you can easily choose from. Easy to use software that allows you to choose a new image for your desktop at any given time. Picture preview is a great feature to enable you to chose an image with a bigger resolution. Desktop Background Changer is able to save the selected image to a specific folder. 3. Import Image to ms Office 2010 - Business & Productivity Tools... Import Image to ms Office 2010 is a freeware to let you import any

image format to ms Office 2010.
